Annual Conference

OAGE is a membership-based organization that involves educators, researchers, practitioners, and students in the state of Ohio. Our primary goal is to provide a forum for gerontological education to advance research and practice in the field of aging. Our annual conference is a major vehicle that links educators, researchers, practitioners, and students throughout the state.

The OAGE Conference provides a great opportunity for individuals to speak about their work and interests with others. The conference is large enough to encompass all the disciplines that contribute to the study of aging, but intimate enough to allow one-on-one discussions with colleagues from all around the state.
