Welcome to the OAGE Directory of Gerontology Programs in Ohio! The Ohio Association of Gerontology and Education developed this resource for students, professionals, and educators who are interested in gerontological education opportunities in Ohio.

Program entrees were updated in fall 2009. We did our best to include all educational programs in gerontology throughout the state, and to provide only accurate information. But we need your help. As you become aware of omissions or errors, please contact us with the correct information. With your help, we can keep the directory current.

## **Association for Gerontology in Higher Education**

*Advancing gerontology as a field of study in institutions of higher education*

The only national membership organization devoted primarily to gerontological education, the Association for Gerontology in Higher Education (AGHE) is in a unique position to develop and sponsor education and training initiatives and to involve students, educators, researchers, and officials from across the country in providing resources for older adults and for those who serve them.

This icon appears with several institutions in the directory. Its appearance indicates that the institution supports a local chapter of Sigma Phi Omega, the National Honor Society formed in 1980 to recognize the excellence of those who study gerontology/aging, as well as of the professional aging service personnel. For more information on Sigma Phi Omega, please visit the home page on-line at:
